This tag is sealed by rubber and comply with EPC C1 G2 (ISO 18000-6C) standard. Working frequency range is 860MHz to 960MHz, suit for global market. This tag suit for tyre factory, vehicle management.

Product Description

Product Name	UHF RFID Tyre Tag
Dimensions	95*35*2.7mm
Protocol	EPCglobal C1 Gen2/ISO18000-6C
Working Frequency	860-960MHz
Chip	M4QT
EPC	128bits
Memory	512bits
Data Storage Life	50 Years
Write Times	100,000
Reading Distance	0-7m, depends on Reader and environment.
Storage Temperature	-40°C~+150°C
Package	200pcs/box, 3000pcs/carton, about 6.4g per piece
Lead Time	25 days
